VIRTUAL LEARNING SERIES

TRANSFORMING HEALTHCARE GLOBALLY

THE ICHOM GLOBAL VIRTUAL CONGRESS
8-11 NOVEMBER 2021

#ICHOMVLS

ICHOM 2021 VIRTUAL LEARNING SERIES

Dear Delegate,

I am delighted to welcome you to Transforming Healthcare Globally: The ICHOM Virtual Congress 2021.

Throughout the year, we have held a number of webinars and workshops as part of our Virtual Learning Series which has provided our community with essential information and updates on Standard Set implementation.

I am joined by over 90 speakers over the next four days to help you overcome your healthcare challenges by delivering unmissable content and answering your critical questions including:

- Why is value-based healthcare the answer to optimising healthcare spend and available resources?
- Will COVID be the defining moment in driving change in healthcare?
- How can the integration of medical and social care address and improve patient services and outcomes by eliminating hospital readmissions?
- Can we make healthcare truly patient-centric and why must we communicate the value of reporting and measuring to patients?
- How to secure support from the leaders in your organisation and ensure all stakeholders are aligned and motivated

I would like to take this opportunity to thank our fantastic speakers and sponsors, especially our Platinum Sponsors Edwards Life Sciences and Humana.

I look forward to seeing you all in person in 2022.

Kind regards,

Suzanne Gaunt
ICHOM President

Meet the members of our Board and new Leadership Team:

ICHOM BOARD

Prof. Michael E. Porter

Board Member and Co-founder of ICHOM

Michael E. Porter, PhD, is the Bishop William Lawrence University Professor at Harvard Business School. He is recognized as a global leader in strategy and competition, and brings more than two decades of experience developing the value framework, which is described in the book he co-authored with his colleague Professor Elizabeth O. Teisberg, PhD, *Redefining Health Care*.

Dr. Stefan Larsson

Board Member and Co-founder of ICHOM

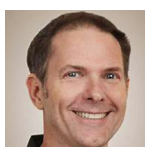

Stefan Larsson is a Senior advisor in healthcare. In 2021, Stefan retired after 25 years with the Boston Consulting Group (BCG) where he was the founder and first leader of its Payer and Provider sector as well as the Healthcare systems sector. He is a fellow at BCG and has led the firm's research on the impact of value-based healthcare. He is also a fellow in the World Economic Forum's Health and Healthcare team.

Prof. Martin Ingvar

Board Member and Co-founder of ICHOM

Martin Ingvar, MD, PhD, is a professor in Neurophysiology and former Dean of Research at Karolinska Institutet. In addition, he is a professor of Integrative Medicine at Osher Center for Integrative Medicine. His research focus is on pain and emotional regulation mechanisms in the brain.

Jamie Heywood

Board Member

Jamie Heywood is an American MIT mechanical engineer who founded the ALS Therapy Development Institute (ALS TDI). ALS TDI became the world's first non-profit biotechnology company and pioneered a new model for accelerating translational research. He is currently the CEO of Alden Scientific as well as founder of PatientsLikeMe.

Daphne Psacharopoulos

Board Member

Daphne Psacharopoulos is the Vice President, Digital at CVS Health. She previously served as Sr. Vice President with PatientsLikeMe, founded and led Healthcare Services at Joslin Diabetes Center, and as a consultant in the healthcare practice of Boston Consulting Group. She is currently a board member at Grass Roots Diabetes.

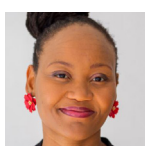

Suzanne Gaunt

President and CEO

Suzanne leads the team at ICHOM. She has a marketing background and has helped build fast-growing, entrepreneurial start-ups in the early days of the internet. After completing an MBA from Warwick Business School she built her experience across multiple sectors as a management consultant before going back into healthcare to launch new tools for healthcare professionals in the UK.

ICHOM LEADERSHIP TEAM

Dr. Neo Tapela
Chief Scientific Officer

Neo is a physician, epidemiologist and healthcare innovator with over 10 years' experience in health research (including outcomes), policy and program leadership. She has managed complex collaborations in the government, non-profit and academic sectors, including heading Botswana's national program for Non-Communicable Diseases (NCDs) and serving as a consultant to the World Health Organisation. Most recently, Neo was a Senior Research Fellow at the University of Oxford's Nuffield Department of Population Health, where she led multiple funded research projects. Her work has been published in over 40 peer-reviewed manuscripts, and her role as a global health innovator has been recognised through several awards including the Aspen Institute New Voices Fellowship.

Dr. Greg Robinson
Chief Technology Officer

Greg Robinson, PhD is the Chief Technology Officer at ICHOM. He previously served as Chief Data and Analytics Officer for Marshfield Clinic Health System, responsible for the development of strategy and tactical execution of data as an asset for the Marshfield Clinic Health System. Greg also previously led IT and care delivery operations as the interim CIO and COO at the Connecticut Department of Corrections, was co-founder of a health IT software in the predictive modeling space, and had senior executive and consultant roles leading technology and operations for healthcare organizations for academic medical centers and health plans. He co-founded Ask Ur Peer, a peer-to-luminary solutioning software platform, and is an active auto racing enthusiast.

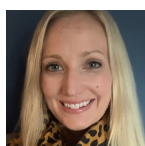

Dr. Eric Hans Eddes
Senior Benchmarking Advisor

Eric Hans MD, PhD, works as a Gastrointestinal Surgeon at the Deventer Hospital, a teaching hospital in the Netherlands. He has always been active in professional boards. From this perspective he became engaged in quality, improvement and transparency in healthcare and was one of the founders and director of the Dutch Institute for Clinical Auditing (DICA), an umbrella organization facilitating 23 clinical registries with nationwide coverage. DICA initiated significant improvements in Healthcare in the Netherlands over the years. Eric Hans was engaged in the World Economic Forum Steering Committee and Core Team for Value Based HealthCare. He was a member of the global Advisory Board of Coloplast and the GS1 Healthcare Clinical Advisory Committee.

Ben Cordle
Chief Marketing Officer

Ben Cordle joined ICHOM in June as Chief Marketing Officer with a brief to make ICHOM Standard Sets and Benchmarking the model for clinical organisations worldwide. Ben brings with him 20 years' experience delivering commercial growth in healthcare, publishing and not-for-profit sectors. He has held marketing leadership roles at Cancer Research UK, New Scientist, London Women's Clinic and the International Water Association. Ben said: "I'm delighted to be joining ICHOM at this time of rapid growth and am looking forward to partnering with clinical experts and stakeholders to develop products and services that improve patients' lives."

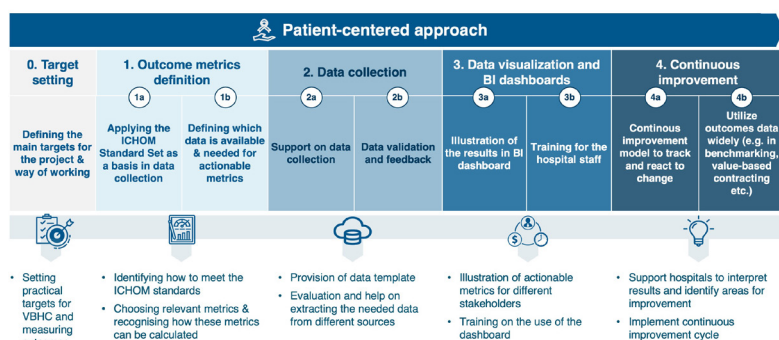

Ali Kirby
Leadership Insights Manager

Ali joined ICHOM in September 2019 as an Analyst before moving into the role of Leadership Insights Manager in March 2021. Prior to ICHOM, Ali has held similar roles at Abbott and Thomson Reuters. She has always had a passion for science having graduated with a BSc (Hons) in Zoology from Cardiff University and an MSc in Science Media Production from Imperial College London.

Nordic Healthcare Group is a social and healthcare analysis and advisory firm. We have over 140 experts based in the Nordics from where we serve our clients globally. We offer our clients a full range of management consulting advisory services, including strategy and operations consulting as well as service design, proprietary research unit and BI capabilities. In addition, we run our own benchmarking services for over 250 social and healthcare organisations in productivity, quality and outcomes benchmarking. We are also an ICHOM implementation partner: our company mission is enable the implementation of value based healthcare.

NHG's ICHOM implementation support services include data collection, visualization and continuous improvement

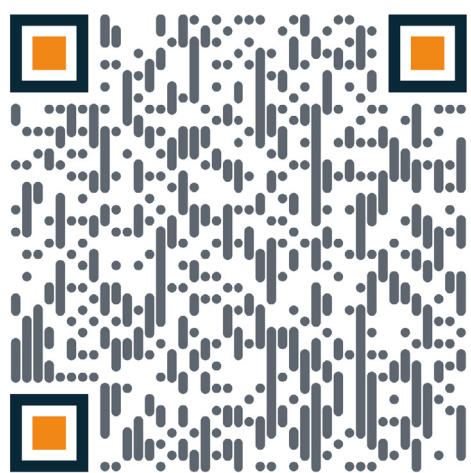

We support healthcare organizations in implementing ICHOM Standard Sets throughout the full journey from target setting, to data collection and visualization and finally build-in continuous improvement cycles based on the collected data. What distinguishes Nordic Healthcare is our understanding of both the technical nature of Standard Set implementation, as well as how to use that information in patient interactions, management and research & development.

The nationwide implementation project of the stroke standard set in Estonia included the collection of both outcomes and costs into an unified dashboard. In the dashboard you can for example: compare hospitals on outcomes and costs, identify sources for deviation between the hospitals, and case mix adjust the results by filtering sub-groups of patients.

Navigate the path to value-based care with specialized training

Earn continuing medical education (CME) credits online

Humana, the University of Houston, and Coursera have teamed up to offer online training to help clinicians, administrators and other healthcare professionals improve their value-based care (VBC) acumen.

This VBC online program is composed of six courses and a capstone project. Participants may take any of the courses independently, receiving a certificate for each, or collectively with the capstone project to earn a VBC Specialization and digital badge. You and your practice staff may also earn up to 36.25 CME credits.

YOU'LL LEARN:

What value-based care is and why it is important

Reimbursement and operating models

How to advance a culture of collaboration focused on value-based care
