ICHOM 2023

conference.ichom.org
ICHOM 2023 was the second most attended Conference, and 73% of delegates were first-time attendees

- 600 Participants
- 115 Speakers
- 45 Hours
- 133 Abstracts
- 46 Countries
- 6 Continents

"My first time attending the ICHOM conference has been truly truly opening I am fuelled with ideas that I hope to share and implement with my team and I have made some great connections"
Delegates’ Profile: Largest proportion of delegates were from a Provider background, with industry/consultancy 25%, govt/regulatory/payer 16%.

Note: There is still a need to increase participation form patients and insurers
Delegates’ Profile: the majority of participants came from European countries but there was good attendance from Saudi, Singapore and Brazil

As anticipated, the majority of participants came from European countries. In the 2024 event, there was a notably greater presence of North American delegates compared to any of the previous European-based events.

Largest delegations came from: Spain, Netherlands, USA, UK, Saudi Arabia, Switzerland, Canada, Singapore, France, Brazil
General Feedback: this was our best-rated event yet, with nearly 80% rating it as “Excellent” or “Good”

The survey response rate has seen a substantial improvement compared to previous years, reaching 39.5%, with 237 survey respondents, as opposed to the 16.22% rate in 2022, which had 75 respondents.
Testimonials

“It has been incredible to be a part of exchanging great ideas, case studies and practical solutions to common VBHC challenges. They say that if you’re the smartest person in the room, you’re in the wrong room - ICHOM was the right room”

“Amazing, patient centred, well organised, meeting with good food, good time to connect with likeminded people”

“…offers the opportunity to share progresses, learn from others and build new projects together”

“brings all aspects of VBHC together in a pressure cooker, and also brings the patient’s voice more explicitly to the table”

“offers a unique convening of global leaders in value based care. It’s not to be missed”.

“Attending the ICHOM conference was an eye opener, implementation of VBHC needs putting the patient at the centre and one can start small, no need to boil the ocean!”

“This event was extremely enlightening and stimulating”

“Combines industry state of the art with academic knowledge. Excellent value for money for academics in healthcare management”
