Dear Colleagues,

It is my great pleasure to welcome you to Dublin for the 2025 ICHOM Conference. Nearly twenty years since the early conversations that shaped value-based healthcare, we gather here from almost fifty countries, united by a shared commitment: to transform healthcare by putting the patient first. Much has been achieved, yet the challenges before us remain urgent and complex—an aging global population, the rise of chronic conditions, and the demand for care systems that are both sustainable and equitable.

ICHOM began with a simple but profound question: *What if healthcare could be better? What if, at every step, we placed the patient's needs, values, and outcomes at the center of care?* That question has guided our journey, inspiring the development of Patient-Centered Outcome Sets now covering nearly 60% of the global burden of disease. It has shown us what is possible when providers, payers, regulators, and most importantly patients work together to redesign healthcare.

This year, our theme is moving from “*What If*” to “*What Next*.” Over the next two days, you will hear from pioneers, practitioners, and patients who are driving change across systems, specialties, and societies. Through plenaries,

workshops, and case studies, we will explore new frontiers: how data can be shared and compared across borders, how incentives can align with outcomes, how waste can be eliminated, and how innovations like AI can be harnessed to deliver more personalized, impactful care.

I encourage you not to be a passive listener, but an active participant. Use this conference to connect, question, challenge, and imagine. Think about how you can translate these insights into action where you work. Ask yourself: *What will my “What Next” be?* Because real change begins with each of us, and together, we have the opportunity to accelerate progress at scale.

Thank you for being here, for bringing your expertise, and above all for championing the patient voice. I look forward to the conversations ahead and to shaping the future of healthcare, together.

“

“Healthcare organizations worldwide who are implementing patient-centered outcomes measurement as the backbone of value-based healthcare should be recognized for the significant effort and investment required to transform practice and achieve results that matter to patients. The ICHOM Accreditation ProgramSM certifies implementers of ICHOM Sets as they mature in their use of both clinical quality and patient-reported outcomes measures. From early implementation and data collection to full use of standardized outcomes data to drive benchmarking and payment KPIs, ICHOM certification connotes dedication to excellence, equity, and patient-centered care.”

Patient Partner Alliance

ICHOM Patient Partner Alliance Empowering Patients: Leading the Way to Exceptional Care

An exciting partnership with patient organizations for a groundbreaking joint-promotion campaign. Our mission is to elevate patients to equal partners in their care, empowering them through shared decision-making. We believe that every patient's voice matters, and we are committed to ensuring that their needs are recognized, valued, and actively sought after.

This collaboration aims to bring together organizations that share ICHOM's vision, promoting the use of ICHOM Sets and emphasizing the importance of patient outcomes across their networks. Together, we can revolutionize patient care and make a real difference.

Patient Scholarship Fund & ICHOM Event App

The Patient Scholarship Fund 2025 has raised over **\$35,000** allowing us to provide financial support to 35 patients (both patient speakers and patient delegates). The financial support reduces the pressure of registration/travel/accommodation costs, enabling more patients to attend the conference.

Thanks to the patient scholarship fund, patient representation in 2024 more than doubled –from 2% to 5% of total delegates. In 2025 patient representation will be over 6%, a further improvement on last year's increase.

This initiative wouldn't be possible without donations from the ICHOM community.
